Title : Content Management - Short Courses
Submitted Date : 19 Jul 2022
Root Case : -

Issue Reported On 19 Jul 2022 17:03

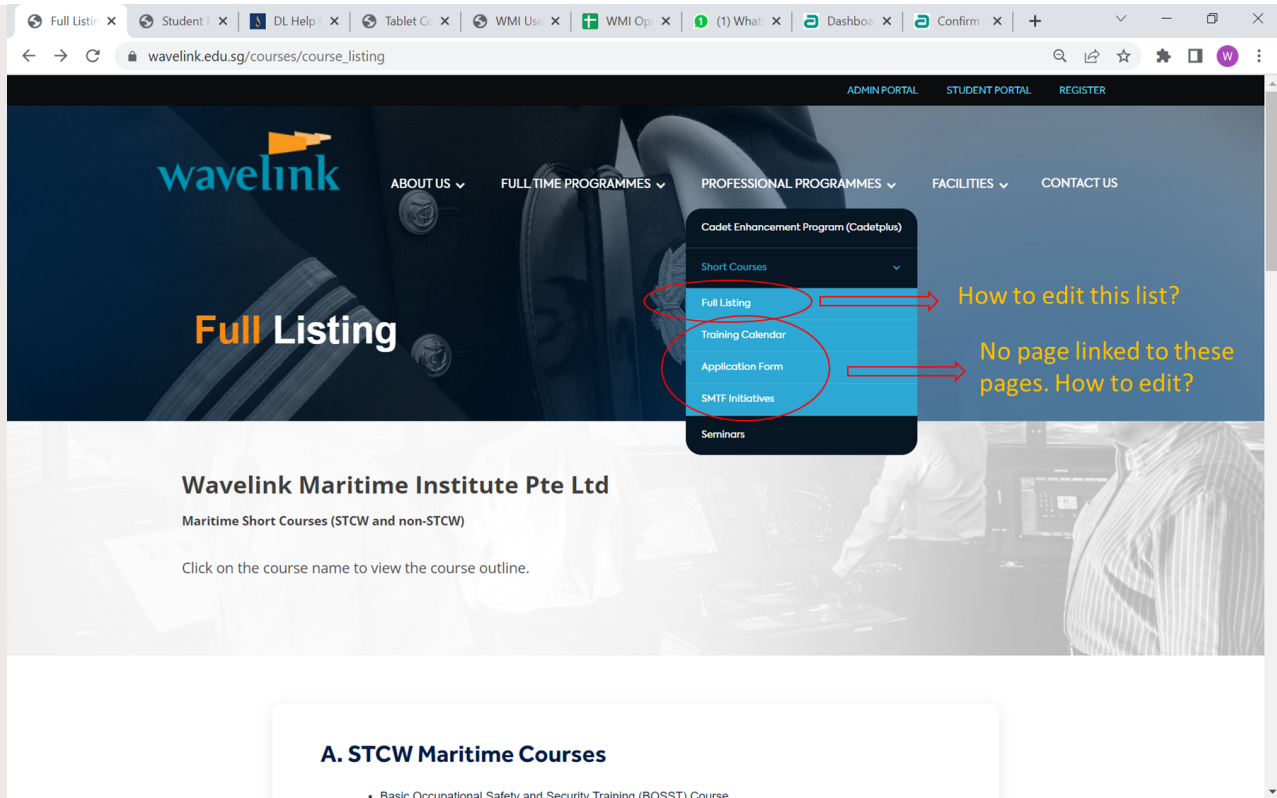

ref Content Managment menu & User Guide, there doesn't seem to be a place where I can edit the list of short course?

23 CONTENT MANAGEMENT

Content management is an interface to allows user to add and modify content of website which includes text and images. The content updated will directly be published in the website for public viewing

short course can be manage in admin from Course Management -> Short Course -> Short Course Profile https://wavelink.edu.sg/course_management/index

regarding other 3 menu as per screenshot, that menus is not integrated with content management, please do share requirement what will be in that menu.

short course can be manage in admin from Course Management -> Short Course -> Short Course Profile https://wavelink.edu.sg/course_management/index

- noted on this

regarding other 3 menu as per screenshot, that menus is not integrated with content management, please do share requirement what will be in that menu.

- for these 3 menus, we are exploring if we can link the pdf/external link to them?

- also, how to change the wording of these 3 menus? dont seem to find a place in superadmin content management.

- for these 3 menus, we are exploring if we can link the pdf/external link to them?
--> yes if you want PDF only then i can put management under content management
- also, how to change the wording of these 3 menus? dont seem to find a place in superadmin content management.
--> Any menu wording can not be changed from admin , but if you think that 3 specfic menu wording needs to change frequently then i can put it under content management to change

- for these 3 menus, we are exploring if we can link the pdf/external link to them?
--> yes if you want PDF only then i can put management under content management
 - please allow us to upload PDF from content management.
 - how about link to external site?
 -
- also, how to change the wording of these 3 menus? dont seem to find a place in superadmin content management.
--> Any menu wording can not be changed from admin , but if you think that 3 specfic menu wording needs to change frequently then i can put it under content management to change
 - we are looking into how to make better use of the 3 menus. havent decided wording yet. possible to allow our superadmin to edit from content management?

- for these 3 menus, we are exploring if we can link the pdf/external link to them?
 - > yes if you want PDF only then i can put management under content management
 - please allow us to upload PDF from content management.
 - how about link to external site?
 - > yes external site link also possible but confirm you want external link or PDF
 - we can choose only between external link and PDF? in a event that we need to make change, how to edit then?
-
-
- also, how to change the wording of these 3 menus? dont seem to find a place in superadmin content management.
 - > Any menu wording can not be changed from admin , but if you think that 3 specifc menu wording needs to change frequently then i can put it under content management to change
 - we are looking into how to make better use of the 3 menus. havent decided wording yet. possible to allow our superadmin to edit from content management?
 - > yes can
 - please proceed to make the change
